Implementation of TPWind 2nd Energy Event

- ❑ The 2nd Energy Event will focus on offshore energy: future themes will be discussed and selected by the AB and approved by the SC
- ❑ The public part of the Event will take place in the afternoon, while the morning session will feature TPWind WG meetings
- ❑ TPWind WG meetings will focus on updating the SRA/MDS: the new version will be published in 2014
- ❑ TPWind Chairs and Secretaries will manage Working Groups meetings: no facilitators will be available this time due to lack of resources
- ❑ The Secretariat held preparatory conference calls with WG Chairs and Secretaries (on 11 and 19 September)
- ❑ The Secretariat developed all relevant supporting documents (delegates' package and the WG detailed agenda)
- ❑ Secretaries should be considered the main driving force of Working Groups

After the 14th SC meeting and the 2nd Energy Event: next steps

- ❑ Following the 14th SC meeting and the 2nd Energy Event, TPWind will be in the position to:
 - Ensure a proper management of the Platform for the next 18 months, thanks to the appointment of ExCo members and WG Chairs
 - Focus entirely on updating the SRA/MDS: its final text will have to be ready by the end of 2013 (also with the contribution of the Advisory Board)
- ❑ The 9th GA will take place in March - April 2013 (date to be identified): it will also focus on updating the SRA/MDS
- ❑ The 9th GA will be preceded by the 15th SC meeting
- ❑ Following the 9th GA, TPWind will start gearing up for the post-TOP Wind period: Working Groups and the SC will have to be renewed in 2014 and EU funding for the second half of the decade will have to be secured (through Horizon 2020, the FP7 successor)
